Assignments

Grading

There will be three programming assignments, graded on a scale of 50 points each. Each homework is weighted equally, contributing to a total of 15% of your final grade. Thus each homework is worth 5% of the overall grade.

Due Dates

Assignments will always be due on the date stated on the assignment specification, generally at midnight.

Late Policy

Assignments will be accepted late only up to 24 hours (ONE day) after the due date/time. That is, by the FOLLOWING MIDNIGHT, with a 10% (5-point) penalty. Programs will not be accepted after that, except under very unusual circumstances and/or by prior arrangement.
